PEER REVIEW POLICY

All manuscripts submitted for publishing in the journal "Computer & Communications Engineering" are treated as confidential. They are peer-reviewed by at least two anonymous reviewers selected by the editor. The corresponding author is notified as soon as possible of the editor's decision to accept, reject, or request revision of manuscripts. When the final revised manuscript is determined completely acceptable according to the journal "Computer & Communications Engineering" format and criteria, it will be scheduled for publication in the next available issue. Rejected papers will not be peer-reviewed again.

The editors are doing their best to reduce the time that elapses between a paper's submission and publication in a regular issue. It is expected that the review and publication processes will be completed in about 2-3 months after submission depending on reviewers' feedback and the editors' final decision. If revisions are requested some changing and corrections then publication time becomes longer. At the end of the review process, accepted papers will be published on the journal's website.
